QUALIFICATION SUMMARY:

Software engineering has offered me an engaging challenge that pushes me to learn, grow, and continuously problem solve. My unconventional career progression has led me to become a versatile employee who understands both technical and customer facing needs. I love to problem solve and write testable/readable code while always being willing to learn whatever it takes to be the best I can.

EXPERIENCE:

August 2019 - Current: Barista: Blueprint Coffee, St. Louis, MO

Responsibilities include: Time Management, Handling customer needs, intense team collaboration, working in a fast paced environment, and making sure quality is always best.

Mar 2018 - Oct 2018: Install Technician: Conference Technologies Inc, Omaha, NE

Responsibilities include: Installing audio/video systems for corporate environments, pulling wire, rigging, programming, trouble shooting, fabricating, and coordinating with clients.

Jan 2017 - Mar 2018: Install Manager: Summit Integrated Systems, Lafayette, CO

Responsibilities include: Installing audio/video/lighting systems in churches and venues, rigging, pulling wire, hanging lights, hanging speakers, working off of site drawings and knowing what to do next while assigning other employees tasks.

EDUCATION:

Fall 2019 - Current

Lambda School, Online

Subjects studied: Full Stack Web Development

Fall 2013 - Spring 2015

Middle Tennessee State University, Murfreesboro, TN

Subjects studied: Audio Production/Music Industry

Fall 2012 - Spring 2013

Olivet Nazarene University, Bourbonnais, IL

Subjects studied: Music Performance
